GBC® Professional

SignMaker™ Series

3-in-1 Sign Finisher

SIGNMAKER 44

SIGNMAKER 25

GBC® SignMaker Series

These versatile laminators are designed to offer more efficient and economical results over conventional and liquid laminators when finishing rigid and flexible signage.
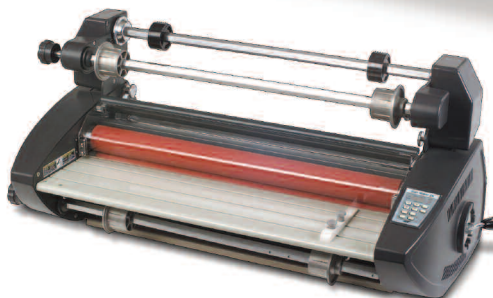

SignMaker 25

This compact top-heat laminator is perfect for sign and print shops producing standard poster-sized graphics.

SignMaker 44

The extra width of the SignMaker 44 enables the production of large banners and ensures coverage for the widest range of applications.

Features and Benefits

The GBC SignMaker™ thermal laminators offer the most efficient methods to produce rigid and flexible signage.

Superior Design
- Features top and bottom unwind shafts for film supply rolls.
- Repositionable top supply shaft allows for the removal of pressure-sensitive liners and AccuShield® carriers.
- Handles mounting boards up to 3/16" thick.
- Designed with top heat only for use with SecurFilm®, GBC Pouch Boards, and AccuShield.

Versatile
One-pass Mounting and Laminating with GBC Pouch Boards
- Run GBC Pouch Boards to create rigid signs and presentation graphics.

Single-step Mounting and Laminating with GBC SecurFilm
- Streamline workflow with SecurFilm, a printable laminating film.

Coating with GBC AccuShield
- Create vinyl signs and banners running AccuShield, a patented dry-transfer process.
- SignMaker's separator bar automatically strips media from the carrier, no trimming required.

Specifications
